

VHDS by Vindicet.

A practical, low cost business intelligence solution tailored to LTACHs.

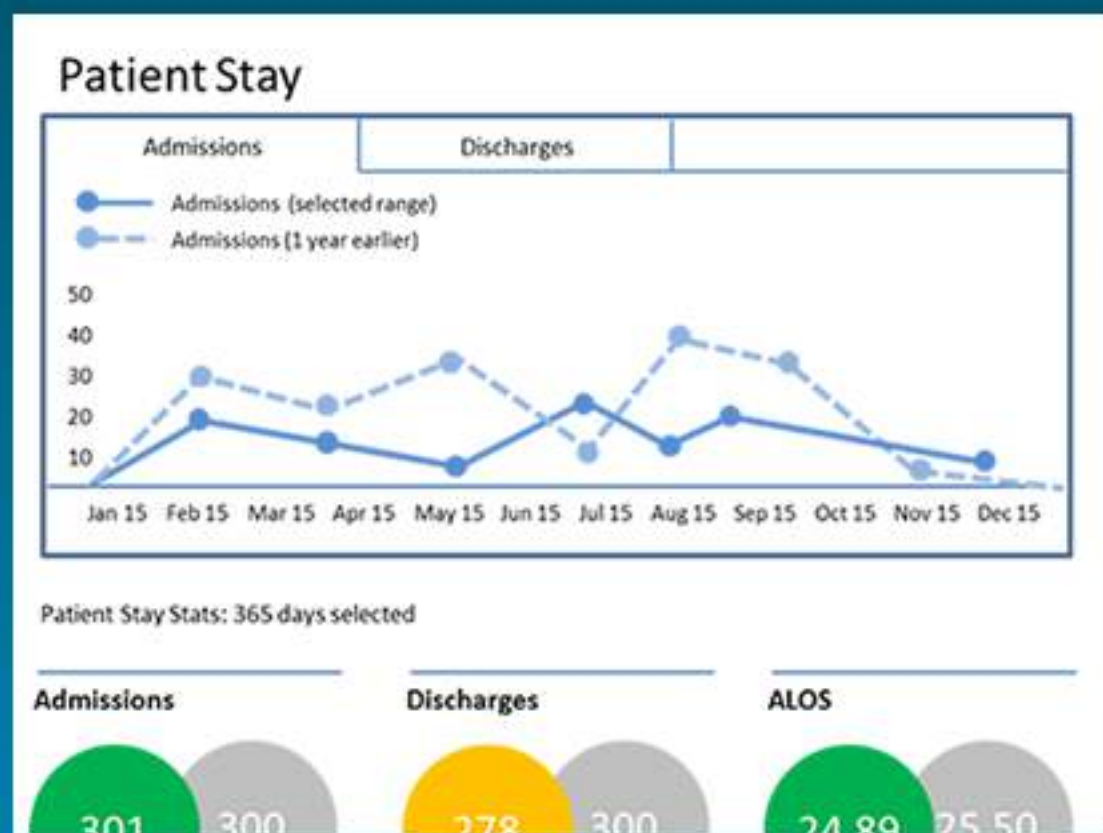

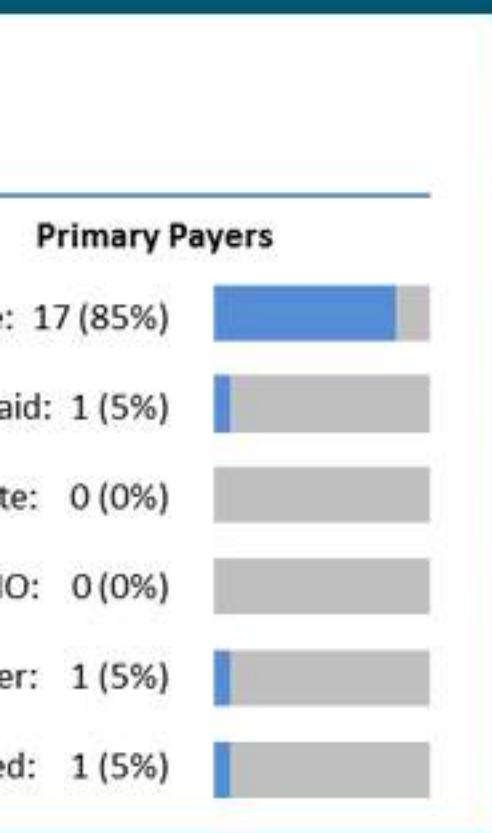

Financial and Clinical benchmarking against 300+ LTACHs

Real-time dashboards let you track actuals vs. budget

Support for multiple-facilities gives you "apples-to-apples" comparisons across your sites

VHDS contains over a dozen dashboards monitoring important clinical, financial and quality metrics.

CAUTI Detail

CAUTI (Per 1000 Catheter Days)

Patient MRN	Patient Name
VCET1453	Fields, Daw
VCET1455	Robbins, Fa
VCET1456	Sanders, Er
VCET1457	Lee, Gerald

With VHDS's real-time dashboards you can set your own monthly targets and specify what different levels will show as Green, Yellow or Red indicators. Set the levels to exactly match how you track these items today and quickly zero in on areas you need to address.

VHDS takes a practical approach to business intelligence, with lots of options for collecting the data you need - including file upload, web-based forms and automated feeds. We'll work with you to determine the workflow that meets your needs.
